Common and safety advice for the hiker

STUDY YOUR ROUTE! Take advice from the relevant agencies on local conditions.

CHOOSE A SUITABLE ROUTE! Know how to gauge your physical and technical capabilities. Do not hesitate to call upon a professional to advise or guide you.

HAVE SUITABLE EQUIPMENT AND LEARN HOW TO USE IT! Choose good walking shoes and do not forget sunglasses, a water bottle, and energy foods. Please carry a first aid kit.

THE WEATHER FORECAST HELPS YOU TO CHOOSE YOUR ROUTES! Weather quickly changes in the mountains (do not forget to take appropriate clothing). Go informed and be self aware in case of changing atmospheric conditions.

BEING ALONE ONLY INCREASES THE RISK. Let someone know your route and estimated time of return.
